

LAPTOP SPECIFICATIONS:

- Minimum 4GB RAM
- 64 bit system.
- Dedicated display processor with 512Mb+ RAM Nvidia or ATI (Nvidia preferred for Interior Design)

RECOMMENDATIONS:

- Interior Designers cannot use Macs – the software clashes with the Mac OS.
- Graphic Design students must have 64 bit.
- Students can look at purchasing the Lenovo Thinkpad series, the HP Pavillion Series (the 19" screen models have problems with overheating) and the Samsung R series.
- Toshiba have very good ranges as well.
