

## Cape Town Exhibition Event - Go Go Green!

The Cape Town Design students put together an exhibition event on 18 June to showcase some of their work and simultaneously raise funds for graduation at the end of the year. The theme was 'Go Go Green', in line with the recycling initiative started by the students at the new campus this year.

One of the highlights of the evening was the Interior Design first year students strutting their stuff on the catwalk. They had to create an item of clothing made of materials from their immediate surroundings creating a 'second skin'. Many of the parents of students donated items for auction and provided food and drinks for the event. The students were in charge of decorating the college and even went as far as bringing in bales of hay to keep in line with the Go Go Green theme. There was a DJ box created from actual cardboard boxes and student work displayed in every crack and corner of the college.

*The hay-bales, DJ box, student work and some of the 'weird' outfits created.*

The event was well attended by parents and guests from industry. It was a wonderful team effort, each and every student played their part in making the evening a success. *Ilze Brown - Cape Town*

## Holiday Workshop 2009 - feedback

Successful Workshops were once again held during the July holidays on all campuses this year. The workshops were attended by scholars from both private and government schools. These students were challenged to design a city called Round Town in order to test their talent for Interior Design. They were then asked to create advertising material to promote the town using principles of Graphic Design.

Some of the students that attended the workshops have already applied to enrol at Inscape next year!

*Examples of some of the creative work done by the workshop students.*

## SPRINGTIME IN CAPE TOWN

The picture below is of our Spring Day celebratory cupcakes made by Charlies Bakery & kindly sponsored by Mornay (Cape Town Principal). It's was just about the only nice thing about the first day of spring what with all the rain in the Cape at the moment!
